

“Transversal skills for humanization of technology for health and social wellbeing”

International Summer School

Campus Universitari Mar
Barcelona Biomedical Research Park (PRBB)

“Transversal skills for humanization of technology for health and social wellbeing”

- **International Summer School** comprises a training offer to health and social care students about **transversal skills**, especially **critical and creative thinking, interpersonal/socio-emotional and citizen-oriented skills** and learning to learn.

The **Summer School** is a **5-day** programme based on experimentation and active methodologies based on different teaching-learning approaches (PBL, role-play, gamification, virtual reality etc.).

Throughout the sessions, students will experiment with the methodologies which will help to **improve their transversal, English and internationalization skills** and expand their network of contacts.

The **ITSHEC project** aims to improve the training of healthcare and social services professionals in **transversal skills** throughout the undergraduate and postgraduate training journey.
